## RESTRICTED TRADING **BEGINS ON SATURDAY**

Decision to Reopen Stock Exchange Is Reached at Meeting of Governors' Committee.

WALL STREET IS RELIEVED

Resumption of Public Trading on Floor Is Forced by Overwhelming Volume of Business-Quickening of Speculative Pulse Expected.

#### BY BROADAN WALL.

NEW YORK, December 7.—Restricted trading in stocks on the floor of the Stock Exchange will begin on Saturday. The minimum prices will be made public on Friday. This decision was reached at a largely-attended meeting of the governors committee after the close to-day. It was further decided that the committee of five be authorized to enforce stock loan contracts whenever it may be deemed wise to do so. tracts whenever it may be to do so.

Resumption of public trading was forced by the volume of business, which completely swamped the committee and literally compelled the transfer of trading from the clearing-house to the floor of the exchange.

FINANCIAL DISTRICT
FEELS MUCH RELIEF

FINANCIAL DISTRICT

Much relief was felt throughout the financial district over the announcement. Odd to houses were particularly pleased, as their customers were under serious disadvantages when attempting to trade through the clearing-house. With call money loaning at 3 per cent, stockbrokers will have little difficulty in financing marginal acquired in the control of the fittle difficulty in financing marginal acquired in the control of the fittle difficulty in financing marginal acquired in the fittle difficulty in financing marginal acquired in the fittle difficulty in financing in speculative interests is expected to result with higher prices for the industrial and traction shares. High-grade bonds, such as Atchison general 4s, Union Pacific first is and Northern Pacific 4s, were in steady demand, but the business done was relatively small. A widening inquiry is noted for the more speculative issues.

Missouri Pacific collateral trust 4s advanced from 35 to 35. These bonds have behind them St. Louis and Iron Mountain stock. This road is in splendid physical condition, earning 6 per cent and paying 4 per cent. The position of these bonds is considered thoroughly sound, and even in the event of a receivership for the Missouri Pacific system, their value probably would not depreciate. When the bonds were brought out they sold as high as 92.

Rock Island issues were again a feature, the collateral trust 4s advancing to 27½, a gain of 17s. Wabash 4s rose a point to 37 in sympathy with the strength of the Rock Island and the Missouri Pacific issues.

Distillers' securities 5s rose from 55% to 574 on reports of good business and the expectation that profits would be largely increased by the curtailment of foreign competition.

ncreased by the curtallment of foreign competition, DEMAND FOR STEEL BONDS IS GROWING United States Steel 5s rose above par. The demand for these bonds is growing. International Mercantile Marine 4½s soid down to 20¾, and Bethlehem Steel refunding 5s were easter at 85½. New York Railway hdjustment 5s advanced to 51½, a new high price for this movement, At the annual meeting, the opposition won, and directors representing incoming bondholders were elected. This, it is believed, will be followed by an increase from 4 to 5 per cent on the bonds.

Trade reports were more favorable in the on the bonds.

Trade reports were more favorable in the metal markets. Orders for steel for delivery in 1914 are now coming in larger volume than at any time since July 20. In the copper market the metal was firm at 32c, and it is reported that several large producers have disposed of their entire output up to March 1 next.

Tennessee Copper directors will meet on Wednesday for action on the quarterly dividend, and the regular rate of 4 per cent is expected.

NEW YORK, December 7.—Announcement that the New York Stock Exchange will resume trading in stocks next Saturday on a basis less restrictive than that which now applies to bonds was the feature of interest in financial circles to-day. The list of stocks will embrace almost 200 issues out of a total of the 555 listed on the exchange. It includes all the leading industrials with the exception of United States Steel, most of the rallways not in the international class and a great variety of cheaper shares, those selling under \$15 being free from all restrictions.

selling under \$15 being free from all restrictions.

Bonds and stocks again were distinctly firm, the aggregate dealings in the latter on the exchange being the largest, according to report, since July 30. In the bond division, the chief texture was the Rock Island group, which was 'increasingly active at further advances.

Southern Pacific convertibles also contributed largely to the day's total, which was the largest since the resumption of bond sales. Other gains in bonds were limited largely to isolated issues, including International Paper 5s. Declines, as usual, were pronounced, ranging from two to eight points, the latter representing the loss in Granby Mining 6s.

Among the principal stock gains were Lehigh Valley, Reading, Central Leather and American Beet Sugar. In the later dealings stocks manifested a reactionary turn.

Time money continued to work easier, while call money touched in the new low rate of 3 per cent. Marks again furnished the only feature of the foreign exchange market, their greater firmness strengthening the belief that Germany was continuing her selling of our securities in this market.

NEW YORK, December 7.—Closing: Mer cantile paper, 42:26. Sterling exchange steady; sixty-day bills, \$4.85; for cables \$4.85; for demand, \$4.8767; bar silver, 50%c.

COTTON MARKETS.

NEW YORK, December 7.—Cotton was quiet to-day, but there was enough buying to give a steady undertone. The close was net unchanged to two points higher. The demand for the late months was less active than toward the end of last week, but builish sentiment was partially encouraged by the continued absence of Southern hedge selling on any important scale and the increasing export movement. There appeared to be little or no pressure against the market.

The opening was steady at an advance of one to four points in response to steady cables. December notices estimated at about 2,000 bales were reported in circulation, but evidently caused no liquidation of consequence, and active montans soid about three to four points net higher shortly after the call. Reactions of five or six points followed under realizing, but trade buying made its appearance on every little setback, and the close was within two or three points of the best.

While houses with European connections have been among the best buyers here recently, and some traders have attributed the demand to German interests, others claim that the buying of late months has been largely for the account of domestic spinners. Mills are said to be buying spot tootton only for their immediate needs, while it is reported that they find difficulty in buying contracts from Southern shippers for deliveries next summer or autumn at anything like the prevailing spot quotation, and they are taking futures on the declines as a protection against their needs.

Total to-day—Net receipts, 57,552 bales; exports, 79,548 bales; stock, 1,239,467 bales.
Total for week—Net receipts, 104,374 bales; exports, 97,543 bales.
Total for season—Net receipts, 3,213,042 bales; exports, 1,574,038 bales.

NEW ORLEANS, December 7.—The prices of cotton moved within narrow limits to-day, and closed one point lower to four points higher than the last prices of Saturday. The market at all times was steady. At the highest the most active months were two points over Saturday's final figures and at their lowest three points under.

Total shipments from all ports, including the coastwise clearances, were 93,296 bales, while total port receipts were only 57,552 bales. Total foreign exports thus far this season up to 1,574,033 bales.

Liverpool was a seller in this market in the early part of the session, but offerings from this source were offset by buying orders from Germany. Some local brokers are beginning to look upon German splaners and spot merchants as their cest customers for contracts.

Spot cotton, quiet; sales on the spot, 240 bales; to arrive, 1,375 bales.

NEW YORK, December 7.—Cottonseed oil was weak under liquidation by local longs and the West on a market of poor absorbing power. Crude, however, was quotably unchanged; but some think the decline in refined oil will force mills to loosen up. Final prices were eight to twenty-five points net lower. Sales, 12509 barrels. CHICAGO GRAIN MARKET.
CHICAGO, December 7.—Wheat turned heavy in the last fifteen minutes to-day, and a moderate advance which had been scored was more than wiped out. Disclosure that the market had become bare of speculative orders to buy was responsible. Prices finished weak at a shade to ½ under Saturday. Corn lost ½ to % net and oats ½ to % to %. In provisions, the outcome was unchanged to 10 down.

[Special to The Times-Dispatch.]
RALEIGH, N. C., December 7.—In a
sermon to-night, opening the pastors'
conference of the North Carolina Baptist State Convention, Rev. Frederick
M. Gardner, of Southern Pines, declared that across the front of many
pulpits to-day should be written "Made
in Germany," a platard, he said, that is
not so popular to-day. "The Preacher's Sacred Power—the Holy Spirit"
was lits theme. "Skeptical thinking"
and so-called "rational reasoning" were
held up as present day evils in the
pulpits, but he thanked God that there
are still ministers who "go to the Holy
Spirit and not to Germany and her
universities for their doctrines."

Dr. Henry F. Cope, secretary of the
Religious Education Association, addressed the conference on "The Problem of the Church in Procurement of
Efficient Membership." Both were
heard with great interest by the 300
ministers and lay delegates who are
already here. The conference continues to-morrow, and the session of
the State convention begins on Tuesday night, with indications that 1,000
or more delegates will be here.

he annulled a marriage on the ground that the husband was a sufferer from tuberculosis. It is the first decision on the subject ever made by the courts of this State, and a careful search of the law books of other States fails to reveal a similar case.

On June 2, 1912, Sarah Sobel married Joseph Sobel, formerly a business man of Freehold, N. J., who is now trying to regain his health in Denver, Col. While courting the young woman, Sobel consulted a physician and learned he was afflicted with the white plague, but he did not inform her of the fact. Almost immediately after he learned the nature of his iliness, Sobel married in great haste, although the doctor told him he would be committing a criminal act if he did so, it was testified. Finally, his condition became so grave he had to go West to prolong his life.

"As a general proposition," Judge Blanchard says, "I do not think it should be the policy of the courts to sustain the obligations of a union which would entail the burden and danger that would follow under the circumstances, and where there can be circumstances, and where there can be no sure method of preventing infec-

## DARKEN YOUR

If your hair is gray, streaked with gray, faded or falling and you want beautiful, dark hair, soft, silky and glossy, free from dandruff, simply apply old-fashioned liquid Q-Ban to hair and scalp, like a shampoo, rubbing it in gently with the finger tips. Q-Ban doesn't cost much to try and is no bother to use, as nothing else is re-quired. Although not a dye, Q-Ban acts on the hair roots and makes and keeps your hair soft, fluffy, thick, giv-ing the hair that dark, fascinating in regard to the automobile service for the collection and delivery of the mails from Manchester Postal Station. The twice-a-day service was inaugurated on Sunday, and the work was done in nearly half the time formerly required. The parcel post business is also being handled much more quickly by the autos, which are in charge of Allen Simms Wright, son of Captain A. S. Wright, of the Third Police Station.

believe that conditions surrounding December wheat are builish. They figure that besides that future being in the hands of strong concerns, the cash article is also well held. This fact gives these holders the upper hand, and there is a possibility of higher prices for December, owing to the abnormal strength shown by the cash wheat. The latter sold only in moderate quantities in the larger markets to-day. Chicago reporting 110,000 bushels, with 120,000 bushels for export. In addition to this 20,000 bushels were sold to go out via the Gulf, and 1,30,000 bushels were taken at the seaboard for export. China is coming to America for wheat, a cargo of 21,000 bushels having cleared from New Orleans for that country. It was reported that the elevator concerns at Duluth were still loading wheat for shipment to-day. The bulls in wheat believe there will be goodly decreases in the visible supply from this time forward, which will be a help to values.
